	Affordable course fees with certification upon successful completion

Working at Height Training

Who Should Take This Course?

This course is designed for technicians and personnel who are required to work above ground level, where there is a risk of falls from heights. Whether you're in construction, maintenance, or any other industry involving elevated work, this training is essential for ensuring your safety and productivity.

Course Details:

- Duration: 2 Days
- Venue: VERTIGOO Training Center
- Course Fee: INR 10000

Course Overview:

Our Working at Height Training provides comprehensive education on working safely and effectively at elevated levels. Participants will learn crucial skills and techniques, including the proper use of full-body harnesses, energy absorber lanyards, and work positioning lanyards. The course curriculum is designed to equip you with the knowledge and practical experience needed to mitigate risks and prevent accidents while working at heights.

Assessment:

The training includes a practical assessment conducted by VERTIGOO's experienced staff. This assessment ensures that participants have acquired the necessary skills and knowledge to work safely at heights.

Certification:

Upon successful completion of the course and assessment, participants will receive a certificate of attendance. This certification not only validates your training but also demonstrates your commitment to safety standards in your workplace.

Enroll in our Working at Height Training today and take the first step towards a safer and more secure work environment.
